The lawn at Washington's headquarters was thronged long before the hour for beginning the exercises. Two hundred New York City policemen aided the local force in preserving order. The Governors of the different States, Senator Bayard, the chaplain, orator, poet and others who had a special part assigned them in the exercises, wheeled from the ranks to the reviewing stand. The "march past" took place to enlivening music, and the parade was dismissed. People then hastened to the lawn in front of Washington's headquarters, where the exercises took place. After an introductory overture by the fine band of the Seventh Regiment, Mayor Ward called the assemblage to order, Rev. Dr. S. Ireneus Prime offered prayer. Te Deum for 500 voices and the band followed, and then Senator Bayard was introduced as the President of the celebration exercises. The Senator delivered an eloquent address and was frequently applauded.

The address was followed with Hail Columbia, by the chorus and band; an original poem by Wallace Bruce, and a grand chorus, "No King but God," followed. Senator Bayard then presented the orator of the day, Hon. William M. Evarts, who received a most cordial welcome.

The speech of Evarts was devoted in the beginning to an analysis of the attitude of Washington in the period immediately preceding and following the close of the war for independence, and closed with a tribute to the character of Washington as a states man. The great influence of the leader's personal strength in molding the character of the new nation was shown, and the declaration made that even had his career ended with the Revolution bis name would still be foremost in history. "In the memory of his countrymen," said the orator, "as he stood upon this very spot one hun-dred years ago, his face would have shone to all this people as did the face of Moses to the children of Israel when he delivered the tables of the law. And now, after a hundred years of marvelous fortunes and crowded experiences, we confront the days and works and men of the first age of the republic. Three wars have broken the peace he proclaimed—the war for neutrality, to complete our independence by establishing our right to be at peace, though other powers sought to draw us into their wars; the war for boundary which pushed our limits to the Pacific and rounded our territory, and the war of the Constitution, which established for this people that for them and forever 'liberty and union are one and Inseparable.' I did not get my clothes bloody, because the blood did not fly. It seems to me that I had hold of the handkerchief which was around her neck, and I might have twisted it when I cut her throat. After washing the blood off my hands and knife went back through the orchard to my work.

UTICA, June 9, 1883. FRANK W. HOFFMAN, clerk of the American District Telegraph Co., says; "Having had occasion to use a medicine for kidney trouble with a lame back, I was ommended by one of our Utica druggists to use Hunt's Remedy, as he had sold a good deal of it to many of our leading families here with great success for kidney, liver and urinary troubles. I purchased some, and have only used three bottles. It has cured me, and I can truly recommend Hunt's Remedy to any one in need of the best medicine for these complaints."

In compliance with your request I send you a statement of my case. I will write you with a double purpose, first to thank you for the great amount of good your medicine, "Hunt's Remedy," has done me, and secondly, with the hope that my recovery will induce some sufferer to do as I did, "use the great specific and be cured." For nearly a whole year I was an invalid, unable to go out of the house, and a great part of the time confined to my bed, a living, powerless subject of the most dreadful of all diseases, "kidney complaint." From the long suffering I became weak from the loss of strength, with a lack of vitality, and very much reduced in flesh. All this time I was taking various medicines, and under the care of our family doctor, and not receiving a particle of help. I had almost despaired of getting well when my attention was called to H int's Remedy by a boarder in my family. I commenced taking it (unknown to the doctor) with but little hopes of relief. This non-belief was soon dispelled, however, as I daily began to improve. I continued the use of Hunt's Remedy, (and to make a long story short), used eight bottles, dispensed with the doctor, and to the surprise of all who knew me, and my own great satisfaction, became as well as ever. All pains and aches vanished, appetite returned, gained strength and fiesh, and to-day consider myself as well as ever, and only too giad to place my testimony with that of many others.

That your medicine, "Hunt's Remedy," brought me from a sick bed I well know, and many people who know of my condition pronounce my cure almost miraculous. I am happy to say I am enjoying excellent health, thanks to your valuable medicine, Hunt's MRS. L. W. CLARK, Remedy. 109 Main Street.

#### Shall We Let the Child Die?

A hard-hearted political economist, looking at a pale and puny child feebly gasping as it lies upon a pillow, says that the child might as well die. It is so weak and poor that its life will never be worth much anyhow. There are already a good many people in the world who are of not much account anyhow. And what's the use of adding to their number another weakling, who has but slender chance of ever amounting to anything?

Now ask that child's mother what she thinks about letting the child die. About this time the hard political economist had better get out of the way. "Let my child die? No! No! As long as there is a remedy to be found that will save that child, the child shall not die! I'll spend my last dollar to save the child!" Well, try a bottle of Brown's Iron BITTERS on that child. See the poor little fellow pick up strength. He revives. He will live. Hosts of other children have been brought almost from death to healthy life by Brown's Iron Bitters. Your druggist sells it.
